DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 16-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 16, lines 5-6, the term "the resulting convolution of a screen conversion filter and a line smoothing filter" lacks proper antecedent basis (as to what this is "resulting" from).

Allowable Subject Matter

3. Claims 1-15 & 18-22 are allowed.
4. Claims 16-17, insofar as they are understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
5. The following is a statement of reasons for the indication of allowable subject matter:

Re claims 1, 16, 18-21 (and dependent claims 2-15, 17, & 22), the art of record does not teach or suggest the recited a

halftone descreening arrangement in which a halftone image is processed into an intermediate image and then subjected to line smoothing filtering.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

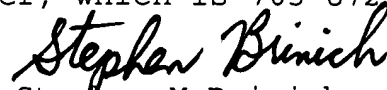

Stoffel, Lavallee et al, and de Queiroz et al. disclose examples of halftone image descreening and filtering operations.
